Texas Medical Board

300 West 15th Street

Fourth Floor

Austin, Texas

November 19, 2015

Dear Texas Medical Board,

This letter is to let the Texas Medical Board know this... WE THE PEOPLE stand with Dr. Burzynski. It would be egregious for your Board to revoke his Medical License as he is curing people from Cancer. Antineoplaston treatment is putting cancers into complete remission. We are tired of the A.M.A. endorsing toxic treatments such as chemotherapy and radiation as the only way to treat cancer. It is a well-known fact that Chemo actually causes cancer, so why are you so proud and insistent on everyone going this route when there are breakthrough therapies available? Chemo does not have the ability to kill a cancer stem cell, without killing the cancer stem cell cancer will always return and with even more vengeance. It is also known that many Oncologists themselves said they would never take chemo treatments.

Also we know that big Pharma makes a lot of money from costly chemo treatments that suck the very life out of patients with cancer almost always recurring in those treated with your conventional therapies.

WE THE PEOPLE have a right to decide what therapy we want to seek, we will NOT stand for Alternative Medicines that cure and heal without damaging side effects to be demonized nor will we stand for the Licensed Medical Physicians to be harassed as you have been harassing Dr. Burzynski for years. He took the Hippocratic Oath to DO NO HARM and he has spent his entire life helping to find a cure for cancer.

It is time for you to stand for the best interest of humanity and let true scientific discoveries NOT be thwarted by the Medical Mafia trying to keep cancer alive and thriving all for the sake of profits. My group alone is over 7,000 strong and we will support Dr. Burzynski and all Alternative Doctors that have treatments that truly cure and cause no harm.

The Truth has come to light and your Board needs to step up and be the Heroes we so desperately need.

Action Committee of Ethical Treatment of Physicians
